RULING ON ENTITLEMENT¹

On March 24, 2021, Bernetta Polley filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered from Guillain-Barre Syndrome (“GBS”) following an influenza (“flu”) vaccine administered on October 28, 2018. Petition at 1. Petitioner further alleges that she suffered the residual effects of her condition for more than six months, that she has never received compensation in the form of an award or settlement for her vaccine-related injuries, and that the vaccination was administered within the United States. Petition at 1, 3. The case was assigned to the Special Processing Unit of the Office of Special Masters.

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

On February 22, 2022, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent has concluded that Petitioner has satisfied the criteria set forth in the Vaccine Injury Table and the Qualifications and Aids to Interpretation for GBS. *Id.* at 6-7. Respondent further agrees that Petitioner has met the statutory and jurisdictional factors necessary for compensation. *Id.* at 7.

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
